MEMORANDUM FOR THE RECORD

SUBJECT: Office of Science and Technology, White House

Last Thursday, I received a call from Dr. Sam Alexander, National Bureau of Standards; he is in charge of Data Processing at NBS.

He asked me if I would brief Dr. Kelly, in Dr. Jerome Wiesner's office at the White House on the American Library Association's electronic library of the future at the Seattle World's Fair. Sam explained that Senator Humphrey had visited the Fair, was favorably impressed by the computer exhibit in the library, and had requested government officials including Dr. Wiesner to attend Senate hearings (to be held on Friday, September 21) on the use of computers for information work in the Federal Government.

I met, subsequently, with Dr. Kelly and provided him with all the information he needed. He, Dr. Alexander, and I discussed the details of operation of the electronic library as well as major information processing problems in the executive branch.

Following the meeting, I reported the substance of the discussions to John Warner by telephone.
